Subject: Proposed restraint

Greetings,

In light of the previous findings of fact, that Microsoft is a monopoly, I would like to propose that all Microsoft dealings be readily available for public scrutiny. This should be a part of any settlement with Microsoft.

More specifically, all contracts in effect between Microsoft and other companies should be a matter of public record--in both existence and precise details.

This includes, but is not limited to, partnerships, joint ventures, acquisitions, and product sales.

Furthermore, the contracts should be available on a Microsoft funded website overseen by the DOJ. The DOJ should ensure that the site is

- complete
- accurate
- well organized
- searchable
- continuously available
- responsive
- optionally downloadable as a single archive

Sincerely,
Curt Cox
